DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

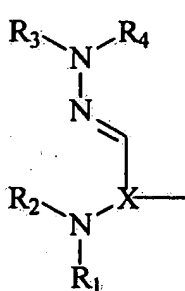

Claims 1-3, 5-10, 12-17, 19-25, and 27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims were rejected in the last Office action because the phrase "part of a cyclic ring" was indefinite. This language is also present in new claim 27. The Examiner has carefully considered applicant's traversal and has reviewed the specification in detail. Applicants traverse the rejection because one of skill in the art would understand that part of a cyclic ring refers to an atom or group that is bonded to other atoms or groups in a ring system. A carbon atom in a benzyl group is part of a cyclic ring.

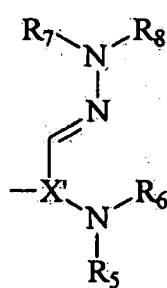

The Examiner must maintain the rejection as presented because the claims do not define any ring as being present. Each of R₁₁ and R₁₂ attaches to a non-cyclic nitrogen atom. There is no ring present that R₁₁ and R₁₂ can attach to or be part of. The claims remain indefinite. The Examiner has carefully reviewed the specification to see if there is any guidance that would aid in rendering the claim definite. Regrettably, the Examiner can find no further discussion of the meaning of this indefinite phrase or examples that show where R₁₁ and/or R₁₂ are part of a ring.

Art Unit: 1756

Claim 27 is also indefinite as presented because it is unclear if the linking group Z is asymmetric or if the moieties

and

are different so that

the charge transport material is asymmetrical. Applicant's remarks in the recent interview are noted but the claims themselves must be definite.

Allowable Subject Matter

Claims 4, 11, 18, and 26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Should these claims be rewritten in independent form the general formula should be removed and only the specific formula of these claims be presented.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 1756

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
